

[Date]

[President's Full Name]

President

[School Name]

[School Address]

Dear President [President's Last Name],

Good day.

[short intro/state your org], committed to applying our knowledge and skills in support of the institution.

We respectfully request permission to conduct a penetration testing activity on selected school systems. This request is limited to seeking your approval at this stage, while the detailed scope, planning, and documentation will be discussed and finalized after permission is granted.

The primary objective of this activity is to assess the current security posture of the school's systems, identify potential vulnerabilities, and provide recommendations to strengthen defenses and improve overall cybersecurity resilience. This initiative aims to support the protection of institutional data, users, and critical systems against potential threats.

We assure you that no testing will be conducted without proper authorization. All activities will be carried out responsibly, within agreed guidelines, and with strict confidentiality, ensuring no disruption to school operations.

We hope for your kind consideration and approval of this request.

Respectfully yours,

[Your Names]
